

QUALITY SYSTEM APPROVAL - NYTEK23

License no.:
PRONO 121

Certificate issued: 2021-03-18
Certificate valid until: 2026-03-31

Royal Van Beest Group B.V.

Industrieweg 6
3361 HJ, Sliedrecht
The Netherlands

This approval is issued after a review of the Quality system related to production of construction parts and based on quality system requirements described in the NYTEK23, NS 9415 and NS-EN 1990.

Each design for construction part shall be certified by DNV - Technical Aqua Services with a specific and dedicated approval of production certificate (produktserifiseringsbevis) issued according to NYTEK § 14. All construction parts shall be produced according to the corresponding approval of production certificate (produktserifiseringsbevis).

All construction parts for mooring shall be produced according to approved quality system. Consistency control for compliance will be performed according to surveillance plan.

This approval requires surveillance of the product, production and quality system according to surveillance plan.

DNV - Business Assurance is accredited by Norwegian Accreditation as certification body PROD 013 for products according to NS 9415, NYTEK23 and guidelines for product certification according to requirements in NS-EN ISO/IEC 17065 and NS-EN ISO/IEC 17067.
